Neuralink™

Inventor: Elon Musk **Year:** 2020

Red Cards = mostly honest cards. Source: https://www.youtube.com/watch?v=r-vbh3t7WVI

I'm not sure what Elon's plan is, but i'm sure the NSA/CIA would like to make a #HoneyPOT out of that Product and even blame Elon if things go wrong, that are maybe caused by another smaller implant, see microsdots t1 card, especially the small ones from Neuronexus on the coin.

If Elon tries to mitigate the problems the older implants causes this would be really great.

BrainImplant Firmware BLOB's

https://0x8.ch/HackersCardgame12

Inventor: God VS Satan **Year:** ~1960

Brain Implants need Firmware. We found out, that they normally have some sort of life of its own. They can include most cards in hackerscardgame we already found out and leaked. Normally Satan uploads complete worldviews (MOS* Cards), eventtriggers, for example i seem to have an eventtrigger that recognizes: "Add another card to HackersCardgame" -> smoke1 Card and lot of other problems. General principle seems to be that older people get the Psychological Keys of the younger people. That Instrument of Power leads to Power Abuse, and this abuse creates a Permanet Record, that is then used by the parents of the parents... Normally you can not talk about this sort of things because you will get in serious troubles, but you can "I accidentally swallowed a Tamagotchi": Jeroen Domburg Implementing the Tamagotchi Singularity -- Our Rating to Jeroens work:

Ritual Abuse Mental Operating System

https://0x8.ch/HackersCardgame12

Inventor: CIA / Fischer? **Year:** ????

My definition of a Mental Operating System would be a almost coherent dogma room for lazy people. This card is maybe played with mos2, mos3 Card in random or specific order. Maybe ritual abuse, Rape, Pedophilia that unfortunately exists is just used by the people like modern joseph mengele to obfuscate illegal Human Experiments. See Cards: eye1, t

So parents that abused eg their kids, are just another thing to triegger psyche of the victim for not finding out the truth about the implant things. The Rapist must not be the one that implanted the illegal things. maybe not even knowing. So this card would be one way they hide illegal human experiments. One could easy use this to find out if patient was subject to illegal experiments, consider Modus Tollens, Modus Ponens and a16 card.

KEN THOMPSON HACK

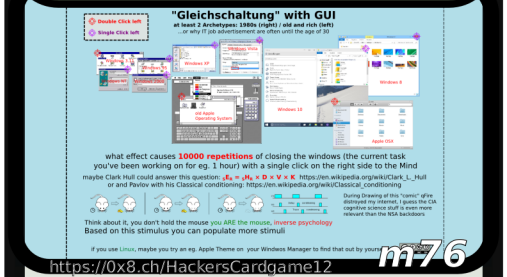
https://0x8.ch/HackersCardgame12

Inventor: Ken Thompson **Year:** 1984

In 1984 KenThompson was presented with the ACM TuringAward. Ken's acceptance speech Reflections On Trusting Trust (http://cm.bell-labs.com/who/ken/trust.html) describes a hack (in every sense), the most subversive ever perpetrated, nothing less than the root password of all evil.

Ken describes how he injected a virus into a compiler. Not only did his compiler know it was compiling the login function and inject a backdoor, but it also knew when it was compiling itself and injected the backdoor generator into the compiler it was creating. The source code for the compiler thereafter contains no evidence of either virus.

Principles of Behavior Stimulus Response Habit



https://0x8.ch/HackersCardgame12

Inventor: xxxxx **Year:** ~????

Formula from Clark Hull describing how programm Stimulus-Response-Habits. Today it is "possibly" implemented in software. The sort of Deprivation or the Stimulus would maybe change randomly. The "PsychologyKeys" would be the same. The communication channel (t1, t... cards) are maybe randomized too and worst case they would do things like frequency hopping. **Psychological dimension**: things like exposure time, for example 17 years torture or "white" torture after an initial great user experience (m38 card) would be important too. (to my equal aged mistress: "user experience" just fun). They also generalize things, first i feared gun-shot noises, then firework, today i fear every single noise. This seems to be one of the main weapons to prevent innocent victims from leaking the truth or if people like me try to warn other people from this sort of attacks and that they could protect themselves eg. with earplugs or Noise-cancelling headphones

VHDL / VERILOG MALWARE

https://0x8.ch/HackersCardgame12

Inventor: ???? **Year:** ???

Like the Ken Thompson Hack one could infect directly the Hardware. For example implementet like Stuxnet that went only after Siemens PLC's to brick nuclear centrifuges this sort of Stuxnet would go against VHDL / Verilog Software.

Worst case there are also a variants that go against artificial cardiac pacemaker, insulin pumps, DBS implants... In 2019 there was the public case where western media blames the Chinese for placing additional Chips on Supermicro Servers to obfuscate this sort of attack. They even protected the details about VHDL /Verilog. Some of them you can mitigate software, tin foil, by useing a jamming device to jam specific frequencies or with a soldering iron, some you can not, choose your hardware wisely

qFire / TURBINE / TARMOIL / Quantum Inserts

Inventor: Satan **Year:** ~2010

This NSA presentation from 3 June 2011 describes QFIRE, "a consolidated QUANTUMTHEORY platform", that links the NSA's enormous passive monitoring operation (TURMOIL) with the active hacking of systems undertaken by the agency's Tailored Acess Operations division (TURBINE): see the Der Spiegel article, Inside TAO: Documents Reveal Top NSA Hacking Unit, 29 December 2013.
