E50 in Good's genealogy of the Watkins family

From her daughter Patti:

Your Aunt June died today in Florida at around 11:20 AM EST, 8:20 AM PST. She died of a sudden abdominal aneurysm. She was in the hospital for about 14 hours and was given morphine to ease her pain. She drifted in and out of consciousness during her last hours. My sister, Mary and her husband, Lou were with her the whole time. Over the last week, she mentioned to Mary that she loved her husband Jim and had had a very good life with him. Mary said she was a real sweetheart this last week as she moved away from Jim for the first time in 40 years to begin an assisted retirement in the Palm Beach, Florida area, 10 minutes from Mary's house. Mary said that mom was very happy and optimistic about the move.

From Mary:

My Mom was really enjoying her new Florida life and we had just had a wonderful day together strolling through an "Art Fair," having a very light cocktail and dinner. Her condition was extremely sudden and way too premature. My dad has digressed into severe dementia and is in skilled nursing. Mom was the last one we expected to fail first.

To all that remembered her great laugh and wonderful sense of humor she spent her last week in great spirits. I remember her as my best friend and was comforted knowing I could be there for her at the end.
